

GO GREEN and Save GREEN with **VERSA-PAK**®

Protective Packaging Solutions

Versa-Pak®, made from **100%** recyclable and biodegradable paper, protects your items during shipping with long-lasting cushioning, conforming, and insulating power against extreme temperatures and impacts.

- Earth-friendly **100%** curbside recyclable paper with no plastic or binders. Sustainable!
- Made entirely of **100%** recycled paper
- **100%** biodegradable and recyclable
- Absorbs leaks and spills and pulls moisture away to help prevent damage to products
- Flexible and stretchable fits around odd-shaped items better than bubble pack or foam
- Soft and non-abrasive, won't scratch delicate surfaces
- Weighs significantly less than other cellulose products at equal thickness; significant cost savings on freight
- Made in the USA!

100% Recyclable

Absorbs 12x Its Weight

Freight Savings
